**Step 2:** Please draw a representation of your countertops in the grid below. **Step 3.** Section your drawing into simple rectangles and squares, numbering them as 1, 2, 3, etc. Be sure to include any islands, bar tops, peninsulas and backsplashes, labeling them as separate sections. Label refrigerators, stoves, ranges, ovens and any other appliances (no dishwashers).

Laminate - Solid Surface - Quartz - Granite

Countertop Sections				
Length"	x	Depth"	=	Area
1	x		=	
2	x		=	
3	x		=	
4	x		=	
5	x		=	
6	x		=	
7	x		=	
8	x		=	
Total Square Inches:				
				÷ 144
= Total Square Feet:				

**Step 4:** Compute Square Footage.

- Measure each countertop section and record the length and depth dimensions of the sections (in inches, rounded to the nearest inch).
- Compute the area of each section. (Length x Width)
- Add all the sections (1-8) together to calculate the total square inches.
- Divide the total square inches by 144 to get the total square feet.
